15. FINDINGS:

15.1 SUMMARY		
Sr. No.	Particulars	No.
i	Total Number of Items / Packages under procurement	53
ii	Packages / Items against which the bids received	49
ii	Number of Packages / Items against which no bids received	04
iv	Number of Packages / Items against which the bidders Qualified in Technical Evaluation Process:	30
v	Number of Packages / Items against which the bidders disqualified in Technical Evaluation Process:	19
vi	Number of Packages / Items against which the bidders Qualified in Final Evaluation	30
vii	Number of Packages / Items against which the bidders have quoted rates within the cost of approved PC-I	01
viii	Number of Packages / Items against which the bidders have quoted rates above the cost of approved PC-I	29

15.2 The Committee found that the rates offered by the qualified firm **M/s Total Technologies** for the item/package **No. 02** namely "**BI-PAP & CPAP**" is within the approved cost of PC-I.

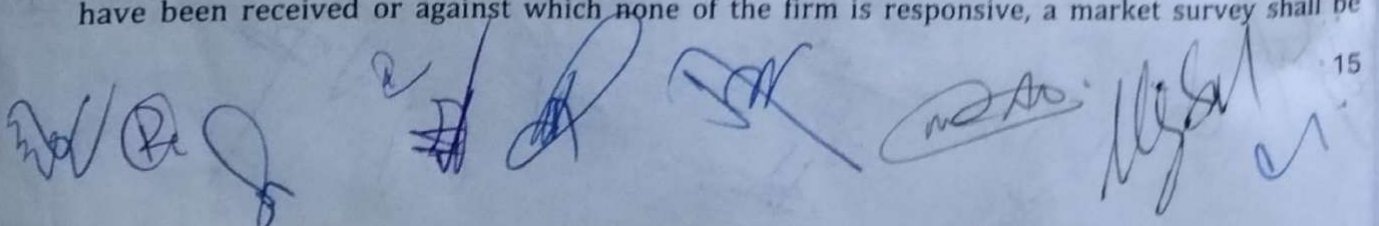

15.3 The procurement committee found that the rates quoted by the bidders against the reaming 29 items/packages are on higher side as compared to the estimated cost of the items/packages in the approved PC-I.

15.3 The procurement committee also found that since the PC-I was approved in year 2022 and the rates incorporated in the PC-I were based on the then prevailing market rates of bio medical equipment in the year 2020. Meanwhile, market dynamics have been changed as local currency has been devalued. Owing to significant devaluation of the Pakistani Rupee against the foreign currency and increasing inflation rates, the actual cost of the bio medical equipment has escalated beyond the approved cost for the Biomedical Equipment of the approved PC-I.

16. RECOMMENDATIONS:

16.1 The procurement committee recommends initiating process for the 2nd revision of the PC-I of the PSDP project "**Establishment of 50 Bedded Cardiac Hospital at Gilgit**" by incorporating the rates of Biomedical Equipment received in subject bidding process.

16.2 The procurement committee recommends that the items / packages against which no bids have been received or against which none of the firm is responsive, a market survey shall be

conducted, and the prevailing market rates of the Bio Medical Equipment shall be incorporated in the revised PC-I of the project.

16.3 The packages / Items against which no firms have applied / qualified, re-bidding process shall be initiated once the revised PC-I is approved from the Competent Forum.

16.4 The committee recommends to award the contract to **M/s Total Technologies** for the supply of item/package **No. 02** namely "**BI-PAP & CPAP**" for being responsive and quoting the rates with the approved cost of PC-I.

16.5 As the rates quoted by the qualified bidders for the remaining **29 items/packages** exceed the provisions of the PC-I, therefore, the committee recommends that once the latest estimated rates of Biomedical Equipment in the revised PC-1 are approved by the Competent Forum, the contracts shall be awarded only to those firms whose quoted rates are within the approved rates of the revised PC-1, subject to bid validity or any extension. Whereas the bidders whose quoted the rates above the approved rates in the revised PC-1, their financial bids / proposals may be declared as non-responsive for quoting unjustified rates.
